## Experience –

**Google**, Incoming Software Engineer

08/2019

- Will be working on Google Cloud Apps as Software Engineer starting August 2019

**Affirm**, Software Engineer Intern

09/2018 - 12/2018

- Worked in Retail Engineering to automate and improve merchant/marketing experiences at Affirm
- Built from scratch and defined design patterns throughout the Merchant Portal using React + Redux
- Automated merchant onboarding process and re-engaged users by building features on a React + Flask app

**Amazon**, Software Development Engineer Intern

06/2018 - 09/2018

- Worked in Hardlines Customer Experience to develop products to solve customer problems
- Built features that are expected to generate \$4 million and more yearly on a Java/Spring microservice
- Increased render rate of Save or Upgrade widget by 64% throughout hardlines product categories

**GoLinks**, Software Engineer Intern

03/2018 - 08/2018

- Worked as an intern to develop features for GoLinks, a YC-backed productivity enterprise SaaS app
- Wrote new API for various features: invites, subscription, and search history with PHP and MySQL
- Developed new pages and built an interactive navigation menu and footer with JavaScript

**University of California, Santa Cruz**, Course Tutor/Grader

04/2017 - 03/2018

- CMPS 10: Intro to CS, CMPS 12A: Accel. Intro to Java, CMPS 12B: Data Structures and Algorithms
- Led weekly lab sessions and wrote Bash and Python scripts to grade assignments

## Education –

**University of California, Santa Cruz**

06/2019

- B.S. Computer Science

## Projects –

**onCareer**, Job Application Tracker

03/2018

- Built RESTful back-end in Node.js/Express with MongoDB and front-end with React
- Implemented Google OAuth 2.0, Calendar API, and a custom API to scrape Indeed to enable job search

**foodgo**, Interactive Restaurant Voting App

02/2018

- Restaurant voting web app to help decide on a restaurant, built on Node.js with Yelp's Fusion API
- Developed using React with interactive animations and Firebase for real-time database
